Springfield, Mass.

"The City of Homes"

Form of Government

Bicameral.

Poulation

U. S. Census (1930) 149,900.
Local Estimate 151,487.

White Population of Age

97,246.

Colored Population

3,141.

Number of all Males

72,688.

Number of all Females

77,212.

Native Born (White)

76%.

Predominating Nationalities of Foreign Born

Italian, French Canadian, Irish, Polish, Russian.

Area

31.90 square miles. Altitude 75 to 200 ft.

Average Temperature

50.85°.

Rainfall

38.62.

Parks, Playgrounds and Land

71 with 1,943.735 acres valued at $7,339,210.-14.

Assessed Valuation

Real estate—$244,870,770.
Personal property—$19,957,630.

Tax Rate

$35.40.

Bonded Debt

$10,780,500. (Jan. 1, 1940).

Financial

Four commercial banks having trust companies with total deposits of $76,224,872 on Dec. 31, 1939; total resources of $186,484,-901 for year 1939 and clearings of $166,491,-678 for year 1939. Three savings banks with total deposits of $84,183,379 on Dec. 31, 1939.

Post Office Receipts

$1,368,512.68 for year ending Dec. 31, 1939.

Telephones

(Jan. 1, 1940)

46,626.

Church Buildings

90 representing 19 denominations. Included in the 90 are 16 churches "Undenominational."

Building Construction

712 building permits issued, valued at $3,501,-007, with 364 new dwelling units permits $2,888,900. (Year 1939)

364 permits new buildings	$2,888,900
348 permits additions, Alterations	612,107
712 total	$3,501,007

Homes

44,040.

Industrial

Chief industries of the city and surrounding territory (manufacturing); electrical machinery, apparatus and supplies; foundry and machine shop products; plastics, printing and publishing; bakery products; envelopes, machine tools, games and toys, radio coils, motorcycles, patent medicines, matches, handbags and billfolds, drop forgings, clothing. Number of establishments 288 employing 14,025 men and women, paying wages of $17,243,407 annually and having products valued at $66,200,246 annually as per report covering the year 1938. Principal manufactured products. (See Above.)

Trade (Retail and Wholesale)

Retail area has radius of 40 miles and population of 500,000. Wholesale area has radius of 40 miles and population of 500,000.

Newspapers

Four daily. One Sunday.

Hotels

Thirteen with total of 2,967 rooms. Newest hotel built in 1929.

Railroads

Boston & Albany, Boston & Maine, New York, New Haven and Hartford.

Highways

Route No. 5 north to Canada and south to New York; Route No. 20 east to Boston, west to Albany; Route No. 57 connects Springfield with College Highway; Route No. 116 to Willimansett; Route No. 21 north to Athol, Mass.

Airports

One in city; one in Westfield, Mass.

Amusements

Fourteen moving picture theatres seating over 20,000. Municipal auditorium seating 3,686.

Golf Courses

Eight, including two municipal.

Hospitals

Eight hospitals with 1,038 beds and 120 bassinettes (includes Shriners, Isolation and City Hospitals).

Educational

Y. M. C. A. College, American International College; Bay Path Institute, Springfield Civil Service and Commercial School, MacDuffie School for Girls. Northeastern University—Springfield Division. Public schools: 38 including 3 senior high schools and 5 junior high schools. Number of parochial schools 11. Number of pupils in public schools 24,127; in parochial schools 5,637. Number of teachers in public schools 916; in parochials—not available. Value of public school property $13,611,201.76.

Public Libraries

Seven with total of over 480,000 volumes.

City Statistics

Total street mileage 244, with 234 miles paved. Miles of gas mains 506.5; of sewers (storm and sanitary) 277.435; of electric street railway trolley cars 34.52; buses 143.13. Number of water meters 23,665; light meters 58,773; gas meters 51,492 (includes meters in Spfd, W. Spfd., Longmeadow, Ludlow and Agawam). Capacity of water works (municipal or private) 25,000,000,000 gallons, with daily average pump of 18,860,000 gallons, 337.29 miles of mains and plant valued at $17,373,727.29. Fire department has 349 paid men, with 8 autos, 9 engines, 13 hose wagons and 8 hook-and-ladder trucks, in 15 station houses. Value of fire department, real estate and equipment, $1,462,117. Police department has 285 men, with 2 stations and 36 pieces of motor equipment. Value of police department real estate $272,398.00; equipment $106,103.55.

THE CITY TODAY

Springfield, Massachusetts was settled in 1636, as a result of the efforts of William Pynchon and a band of faithful followers who sought the fertile valleys in this part of the country, for homesteading purposes. It was made a town May 14, 1636, O.S., and incorporated a city May 25, 1852.

The city has grown to a community having a population of 149,642. Springfield is 99 miles from Boston; 103 miles from Albany, New York, and 135 miles from New York City. Immediately surrounding Springfield are numerous smaller towns and cities, including among the first, West Springfield, Longmeadow, East Longmeadow, Wilbraham and Ludlow, and among the latter, Chicopee.

Springfield has, since the last part of the eighteenth century, been continuously developing as a manufacturing center, although surrounded by communities agricultural in character. The industry of the community is of varied quality. The skill of workmen to be found here has developed the popularity of the community as an industrial section for the manufacture of many varied products. For the most part, raw materials and supplies are transported to the city. The location of the city nearly equidistant from the three large centers—Boston, Albany and New York—is an enviable one.

The rolling hills rising from the Connecticut River Valley provide for excellent residential sections.

The prevailing meteorological conditions give to Springfield typically New England seasons with charming summers and cold winters with some snow.

SERVICE INSTITUTIONS

Springfield is fortunate in having a group of public utility organizations which aid, and have for many years, in the development of the community. Under the municipality, there operates a Springfield Water Works the activities of which provide the community with excellent drinking water, piped to the city from the eastern foot-hills of the Berkshires. An excellent reservoir system practically doubling a previous capacity, and provides a maximum flow adequately to care for the city for many years to come.

The Springfield Gas Light Company produces gas for households at the rate of 74c for first 200 cu. ft., balance used at 11c per 100 cu. ft. For larger household users the minimum rate of $4.25 for first 3,500 cu. ft. and balance at 8c per 100 cu. ft. prevails. Industry is also served at varying rates. A net work of the piping of this corporation covers nearly the whole city, and is being rapidly extended.

The United Electric Light Company provides light and power on a combined flat rate and low energy charge.

Transportation facilities provided by the Springfield Street Railway Company afford excellent local and interurban transportation service. The rehabilitation of the rolling stock of this company and much of the roadbed has been completed, and the newest type of trolleys and buses are available for use.

Springfield has long been recognized as a community in which the educational facilities are of an unusually high standard. The public schools' program is most complete and leads the pupil through the primary grades and junior high schools into one of four high schools of excellent standing and character. In the first—the Classical High School the curriculum is of an essentially academic character, providing for the continuance of education in the academic colleges and universities. The second—the Technical High School—is fundamentally an engineering school and offers courses leading directly to industrial work or into the higher engineering colleges. The third—the High School of Commerce—prepares the pupil thoroughly for a business career and also for entering into a limited group of colleges. The fourth—the Springfield Trade School prepares the pupil for industrial employment.

Freight rates prevail for the shipment of raw materials and finished products into and from the city on a basis which permits our manufacturers to compete with others in similar lines in other parts of the country.

Springfield has dwelling units for 44,040 families and has long been known as a community of home lovers. The environment which has been created is a result of a mixed population, possessing many natural advantages and proving pleasing to all. There are many community civic organizations, each of which was definitely formed for the improvement of its part of the city.

CONSUMING POWER

Farm products valued at over $5,000,000 were raised in Hampden County in 1939 and consumed mostly in this area. $26,704,309 worth of stock and material was used in our factories in 1938. New England, of which Springfield is a part, is forced to import from outside all basic raw materials even to lumber and depends on its skilled labor and native ingenuity in fabrication to maintain its industrial supremacy. The normal consummation of a population of 149,642 is augumented by at least 100,000 to include traveling men, attendants at conventions, schools, etc.

INDUSTRIAL SITUATION

The latest available statistics in Springfield show 288 establishments making as many different lines, using material and stock valued at $26,704,309, paying wages of $17,243,407, employing 14,025 people and producing $66,200,246 worth of products. Many of these factories manufacture products known the world over and spread the fame of Springfield into all countries. Westinghouse Motors and Bosch Magnetos, Indian Motocycles, Smith & Wesson revolvers, Springfield rifle, Absorbine Junior liniment, Monsanto chemical products, and Milton Bradley games and toys are typical examples. Industry in Springfield is highly diversified though the manufacture of electrical goods and equipment slightly predominates in value all other lines. Skilled artisans can usually find steady employment in Springfield due to this condition.

Springfield is justly proud of its title, "The City of Homes," and well deserves it as there is a home for approximately every 3½ persons of population, and of those occupied about 30% are owned by the occupant. A recent survey showed that only 46 were classified as undesirable and the majority of these would normally rent for $20 a month or less. This condition is maintained partly by the fact that due to diversity of industry the labor demand is steady. Abundance of water power in the valley has caused erection of enormous hydro-electric stations with the result that reasonable electrical rates prevail and practically all homes enjoy the use of electricity with all its advantages.

FINANCIAL SITUATION

Though having one of the lowest municipal tax rates in Massachusetts, Springfield has been continuously developing without unduly burdening the public and has a total outstanding bonded indebtedness of but $10,780,500. Economy is the rule of Springfield's administration though large appropriations for permanent improvements are made yearly to keep pace with the schedule of the City Planning Board. Springfield has four commercial banks and trust companies and three savings banks; Additional banks: 2 Co-op., 1 Federal Land Bank. The total banking dept resources of these Springfield banks are $279,620,596, with clearings for 1939 of $166,491,678. Due to its being so accessibly located, Springfield was chosen as the logical location for the establishment in New England of the district branch of The Federal Farm Loan System.

RETAIL TRADE

While Springfield has a population of but 149,642 people, its retailers serve a territory containing 500,000 population. The two main department stores of Springfield do an annual business in excess of $10,000,000. The large proportion of merchandise carried in Springfield is of a quality nature as there are no great number of the so-called poorer class in Springfield. Seventy-six per cent of its inhabitants are native born.

WHOLESALE TRADE

Springfield is served north, east, south and west by trunk line railroads and it has consequently become a well-known jobbing center. Stocks carried in Springfield cover practically every well-known product manufactured in the United States applicable to the northern climate and are distributed over a radius of more than 50 miles.

CIVICS AND WELFARE

Of outstanding value is the work done by the City Planning Board through whose efforts a definite arrangement for the control of the future growth and development of the city is projected and maintained.

Hospital facilities are more than complete, for the community is fortunate in possessing four hospitals caring for general cases, two hospitals maintained particularly for the care of maternity cases; and one hospital for diseases requiring isolation, erected by the city at a total cost of approximately $750,000. Beautifully modern, a wing of the Springfield Hospital, erected at a cost of $2,500,000, was opened late in 1931. Springfield is fortunate also in being the home of the Shriner's Hospital for Crippled Children for the whole New England area. Medical and surgical treatment may be had from many physicians and surgeons of repute.

Health and sanitation are carefully guarded. Through our school system the health of the children is given more than adequate attention.

Springfield possesses every type of amusement and recreation offered in cities of its size —theaters, dancing salons, boating, canoeing, golfing, tennis—all of these are available. Supervised recreation for children is made possible through the very efficient work of the Springfield Park Department, through the agency of which are operated 71 public playgrounds, lands and parks covering more than 19 hundred acres.

Of outstanding importance is the Eastern States Exposition held annually in the third week of September on grounds owned by the Exposition, and bringing to the community upwards of three hundred thousand visitors seeking a display of latest agricultural equipment and other displays. Here is held the annual horse show, and to this exposition come the children from the ten eastern states to exhibit their handiwork. On these grounds, the states of Maine, New Hampshire, Vermont, Connecticut and the Commonwealth of Massachusetts have each erected buildings in which are to be found excellent displays indicative of the quality and character of these four States.

CITY AS A CENTER

Springfield is the center to which tourists come over excellent highways, and through which they pass enroute to Maine, New Hampshire, Vermont, as well as to points of interest in Eastern Massachusetts.

Springfield is a trading center for a population estimated at 500,000. To the community are attracted these persons who seek adequate shopping facilities, excellent stores, fine restaurants and hotels.

The industrial prestige of the city has been developed as a result of the skill of its workers in mechanical trades. It is in a sense an agricultural base, for here are located the Eastern States Farmers' Exchange, the Hampden County Improvement League, and many other agencies working co-operatively for the development of agriculture throughout all of New England.

Springfield is the Western Gateway to New England, and, without question, the most easily accessible city in New England from points outside thereof. During 1939 23,431 persons attended 62 conventions held in the city of Springfield. The Springfield Chamber of Commerce operates a Convention & Visitors Bureau which actively solicits convention business and renders a maximum of co-operation to convention groups meeting in this city.

ADVANTAGES AND CLAIMS

In the last analysis, Springfield is the only city in the area between Boston, Albany and New York that has developed in a balanced way along the lines of beauty, education, finance, industry, mercantile and recreation. It is a community to which persons come to visit and remain to live and prosper.

CITY AS A SERVICE CENTER

The Springfield Chamber of Commerce for more than forty years has functioned in a capacity as a counsel and guide not only to citizens of the community, but to those from other cities seeking information or advice about the city. It is ready to co-operate in every practicable way to assure interested persons that they will receive adequate and reliable information concerning the community and its activities.

"What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government, and her needs. This knowledge develops, first, an intelligent interest; then, a sympathy; then, a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful; and finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

Springfield Chamber of Commerce

Massachusetts

Chester O. Fischer,	*President*
Alexander G. Medlicott,	*1st. Vice-President*

MUNICIPAL WATER WORKS.

The works are in charge of a board of Water Commissioners consisting of Ernest F. Carlson, chairman; Albert B. Vincent and Mayor Roger L. Putnam, ex-officio; Leland G. Carlton, acting supt; clerk and acting water registrar, Dennis F. Sweeney; Elbert E. Lochridge, chief engineer. Office, (319) City Hall. Service Building and Yard, 71 Colton. Office hours 9 a.m. to 5 p.m. Saturdays 9 a.m. to 12 m. Telephones: (applications and information) 3-2131; (work and trouble calls, day or night) 2-5188. The supply of water is taken from the Little River watershed (situated principally in the towns of Blandford, Granville and Russell) and by means of the following storage structures:

	Capacity in Gallons.
Borden Brook Reservoir (impounding)	2,500,000,000
Cobble Mt. Reservoir (impounding) ..	22,225,000,000
Intake Reservoir (diverting)	40,600,000
Sedimentation Basin (before filtering)	38,700,000
Provin Mountain Reservoir (after filtering)	29,280,000
Total	24,833,580,000

The former supply from impounding reservoirs in Ludlow and Belchertown is also retained at present for towns of Ludlow and Wilbraham and for emergency uses, and, with its storage capacity of 1,434,218,000 gallons make an aggregate capacity of 26,267,798,000 gallons.

Range of pressure on mains for day and night, as follows: Main street leval, maximum, 147 pounds, average, 140 pounds. Hill section level maximum 87 pounds, average, 80 pounds.

The entire supply of city water to any premises is furnished by meter only and at meter rates; the necessary meters are installed by the water works at expense of the consumers for the initial cost of the meters and connections only.

The cost of ordinary care and repair of all meters is borne by the water works; the cost of unusual repairs (necessitated by freezing, hot water, etc.) due or attributable to any carelessness or neglect on the part of the consumer, will be charged to the consumer or owner.

METER RATES.

(Subject to all rules and regulations)

For each 100 Cubic feet (748 gallons) of water as registered or estimated for each independent premises the rates shall be as follows:

For the first 5,000 cubic feet or less per quarter, at 22 cents per 100 cubic feet (about 30 cents per 1,000 gallons).

For all excess over the first 5,000 feet per quarter, at 5 cents per 100 cubic feet (about 7 cents per 1,000 gallons).

Where the aggregated total use for one independent premises amounts to 750,000 cubic feet or more in any one quarter, the entire quantity will be charged at 5 cents per 100 cubic feet.

Subject to the following minimum quarterly charges:

(a) Single dwellings and double houses or blocks (of two or more ground-floor single tenement sections), each tenement not less than $2.00 per quarter.

(b) Tenement houses, apartment blocks, etc., each tenement or apartment not less than $1.50 per quarter.

(c) Business blocks, manufactories, and other industrial plants, elevators and motors, each bill for each independent premises, not less than $2.50 per quarter.

Special for Elevator Uses—Where the total or aggregated quantity for operating one or more elevators on each independent premises amounts to 33,000 cubic feet or more in any one quarter, and is metered and billed independently of all other uses. the entire quantity will be computed at 5 cents per 100 cubic feet; but no bill hereunder shall be rendered at less than $25.00 per quarter.

Business and industrial buildings of more than one section, and adjoining or adjacent buildings, under one independent ownership as a plant (if not separated by a street or by any other buildings or premises under another ownership), may be considered as one independent premises, and as such, subject to the computing and billing of the foregoing meter rates. In all other cases the supply through each service and meter shall be computed and charged as separate and independent bills.

Each quarterly period will be computed and charged for independently of any other quarterly period and the rates therefore shall be paid accordingly.

When a meter from any cause fails to register the consumption of water the quantity shall be estimated and the charge made based upon the registration by the meter when in order or upon the registration for corresponding prior quarter or period.

Builders' Uses—Where water is to be used in the construction of ordinary framed buildings, or for small building operations where the use may be easily estimated, the meter installation may be temporarily deferred, as an accomodation to the owner or builder, until the completion or occupancy of the building, and a nominal estimated flat rate may be charged for builders use of water to the owner of the property who will be held responsible for such use and the payment of such charge.

The Water Registrar and the Supt. shall determine all cases where the foregoing provisions may apply, and each case shall be considered independently of any other, but no such estimated charge shall be less than $1.00.

Miscellaneous and Temporary Uses—In certain cases of miscellaneous and temporary uses of city water, where the quantity used may be small, th echarge for same may be estimated instead of being shown by meter, at the discretion of the Water Registrar and the Supt.

The Water Registrar shall have the right to require an advance deposit as security for the payment of water bills, when he shall consider it for the interest of the city to do so; such deposit not to exceed a year's mininum rate for the property to be supplied or a reasonable estimate of the probable annual amount or such bills.

All bills due the City on account of the Municipal water works shall be payable at the office of the City Collector, Room 137, Municipal Building, Court and Pynchon streets within twenty days after the same are rendered and become due.

Inquiries and claims for correction should be made at the office of the Water Registrar, Room 319, Municipal Building.

Delinquent water bills are a lien on real estate.

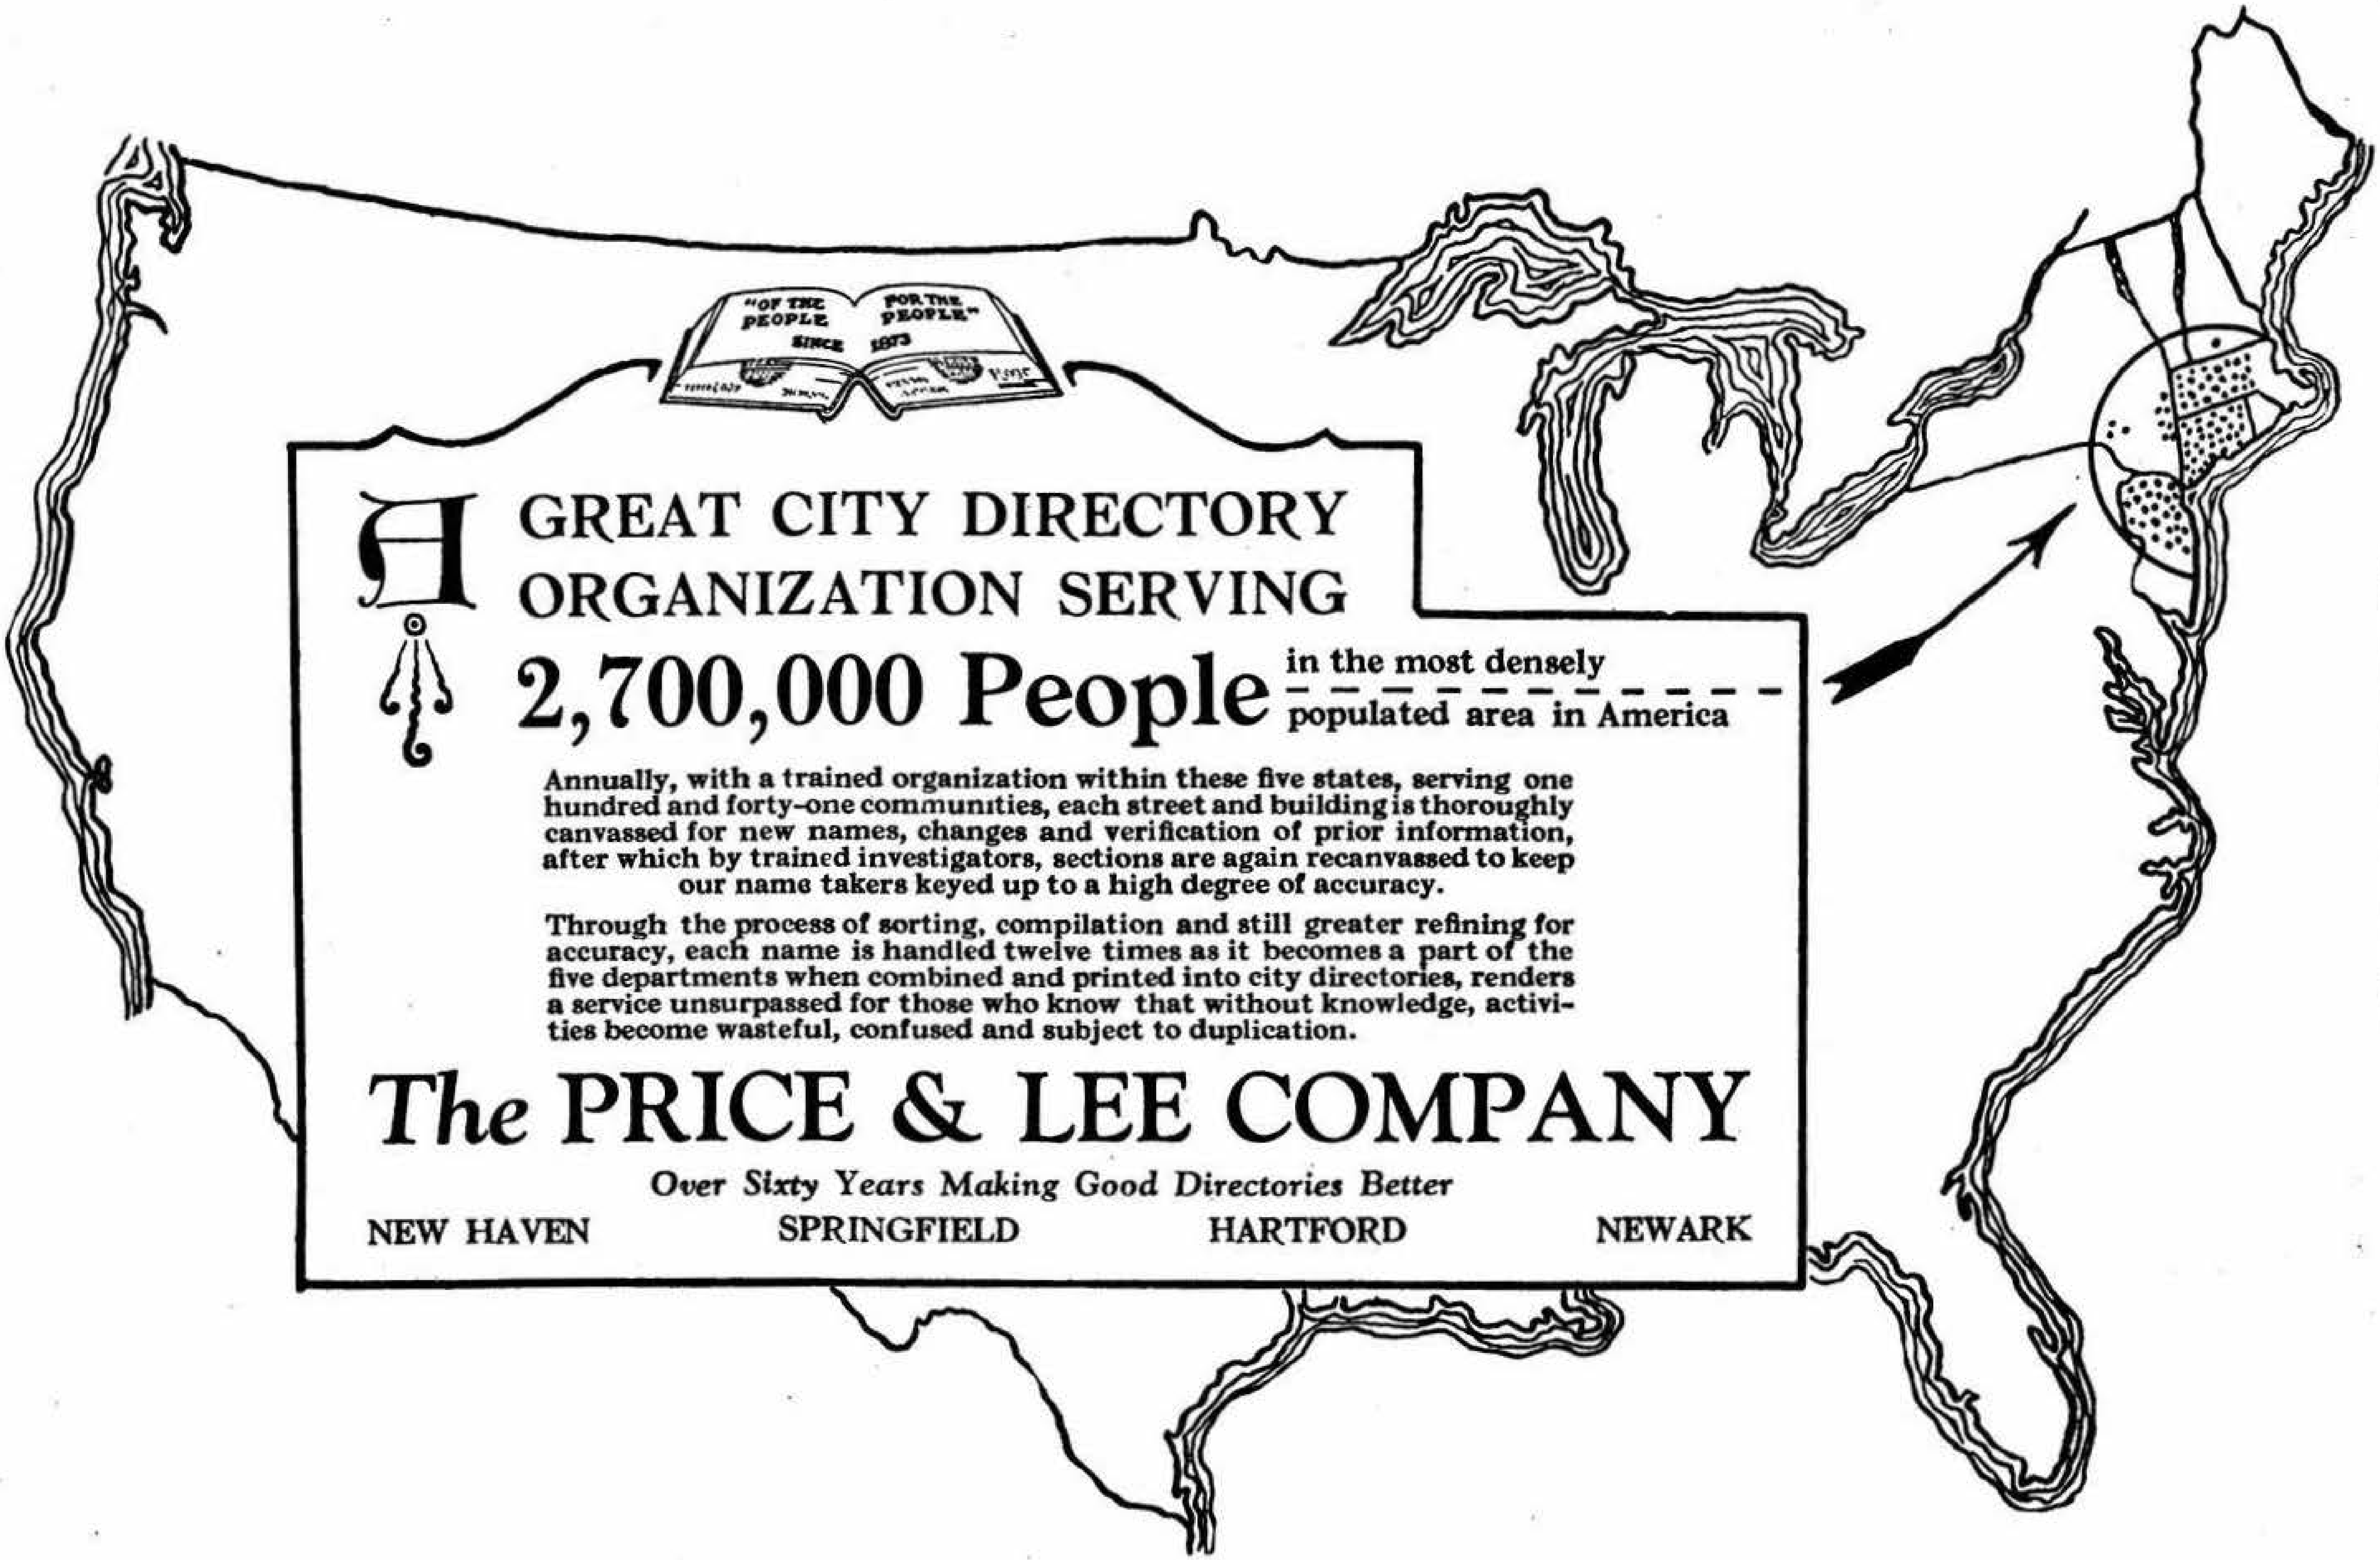
Have You a Message for Men?

LET the CITY DIRECTORY carry it home. Enlighten the public as to who you are, where you are and what you have to sell. The City Directory will keep your name before the public all the year 'round. Our copy writers will animate your advertising. And no man well supplied with mental gravity will differ from this: Perpetual Publicity Plus Personality Produces Patronage

The Price & Lee Company



A GREAT CITY DIRECTORY ORGANIZATION SERVING
2,700,000 People in the most densely populated area in America

Annually, with a trained organization within these five states, serving one hundred and forty-one communities, each street and building is thoroughly canvassed for new names, changes and verification of prior information, after which by trained investigators, sections are again recanvassed to keep our name takers keyed up to a high degree of accuracy.

Through the process of sorting, compilation and still greater refining for accuracy, each name is handled twelve times as it becomes a part of the five departments when combined and printed into city directories, renders a service unsurpassed for those who know that without knowledge, activities become wasteful, confused and subject to duplication.

In the general contracting and *Fine Home Building* circles of Springfield and vicinity we offer an attractive service in this respect. We will build according to your plan and will take entire charge of the construction. We are also ready to submit plans and to offer valuable suggestions in regard to new construction as well as remodelling or alterations to improve the property. In connection with the Federal Housing Act, we are able to contract for home and commercial construction to the advantage of the customer.

Superfluous Hair Removed by Electrolysis

ABOUT 1875 Dr. Mitchell, oculist, of St. Louis, evolved a method of using electricity for the permanent removal of ingrowing eyelashes. Soon after, his friend, Dr. Hardaway, conceived the idea of using this method for the removal of Superfluous Hair from the human face. Today, physicians everywhere, recommend this method as the only sure way of obtaining permanent relief from this annoying condition.

For forty-nine years this office has employed *this* method—*the* method discovered by one, and employed by ALL the OLD MASTERS, the single electric needle process, in painlessly disposing of these disquieting blemishes *for all time*.

Information and demonstration treatment by appointment, without charge.

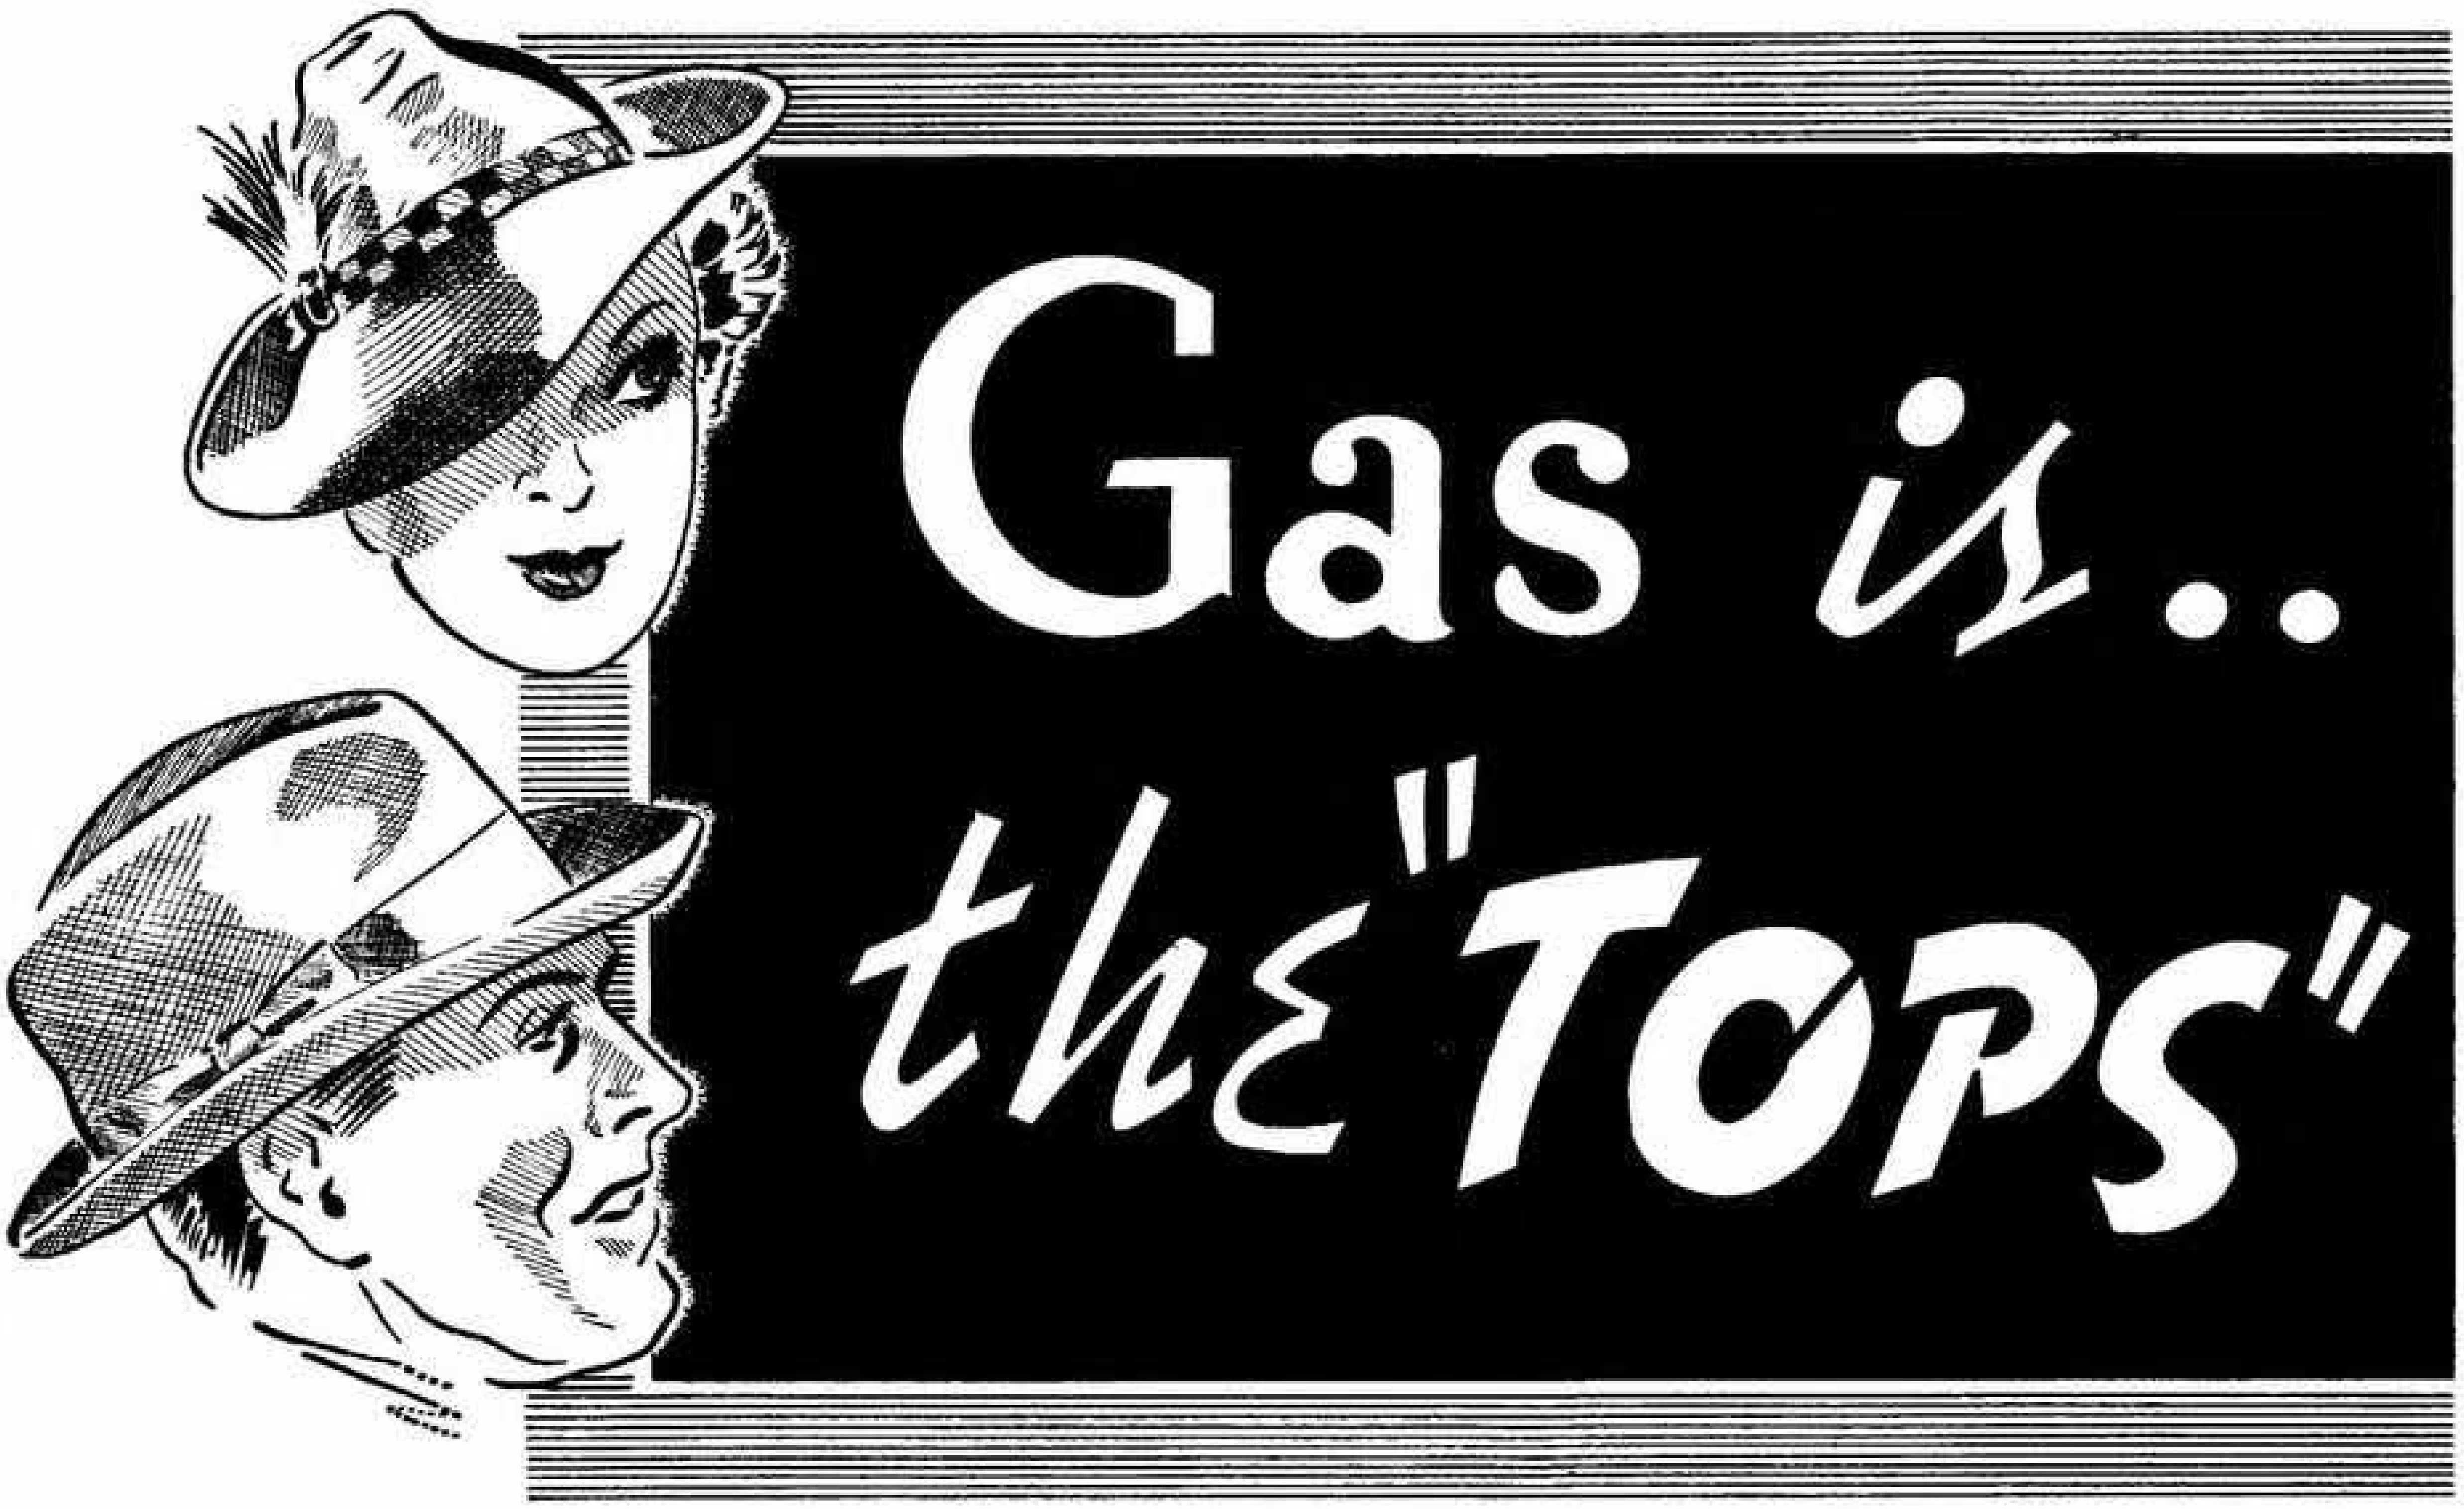
IT PAYS TO BE PROMINENTLY DISPLAYED

To let people know **who** you are, **where** you are and **what** you have to sell. The **Directory** is a Buyers' and Sellers' Guide on the job 365 days in the year. **Are you in right?**

Gas, Domestic and Industrial



for COOKING

The New CP (means certified performance) Gas range gives you in a single cooking appliance all the basic improvements known to modern science. These improvements mean to you, in your kitchen, savings in time, food and fuel.

for REFRIGERATION

The Servel Electrolux Gas refrigerator has no moving parts in its entire freezing system. That's why you get more years of low operating cost, more years of dependable service and silence for its entire lifetime.

for WATER HEATING

Hot water at the turn of a tap at exactly the right temperature, day or night, at low cost - - that's automatic hot water service with Gas.

for HOUSE HEATING

More and more small home owners in Springfield are installing Gas heating service. Why? - - - Because Gas is the *only* entirely automatic heat, its cost is comparable with other fuels, it is clean, it is entirely effortless.

AN OPPORTUNITY

TO advertise your business in detail where people will see it. It will be referred and cross referred from headings people look at when they want to buy goods.

Superfluous Hair

Modern Science has made it a simple matter to be rid of Superfluous Hair. One of the most commonly recommended methods is the Electric Needle. Here, however, patience is required as well as endurance. But Satisfaction is Guaranteed!

Richmond Directory Co.,
Yonkers, N. Y
Gentlemen:

We have advertised our products in your several city directory publications for many years. We have also advertised in various other directories, all of our advertising being keyed so that we could determine whether this kind of advertising paid us.

During the period of one year, we have traced business amounting to over $40,000 directly to this advertising. We thought that you and other directory publishers would be glad to know this.

Very truly yours,

LHJ/CS

Have You a Message for Men?

LET the CITY DIRECTORY carry it home. Enlighten the public as to who you are, where you are and what you have to sell. The City Directory will keep your name before the public all the year 'round. Our copy writers will animate your advertising. And no man well supplied with mental gravity will differ from this: Perpetual Publicity Plus Personality Produces Patronage

Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted.*

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for ***three hundred and five days,*** therefore—

1000 x 3½ x 305 =

1,067,500

Consultations or

Circulation Consulted

Reference Advertising

HE who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.

SPRINGFIELD CEMETERY ASSOCIATION

171 MAPLE STREET **SPRINGFIELD, MASS.**

ESTABLISHED 1841

Most Completely Equipped Cemetery in Western New England

The Springfield Cemetery was established in 1841. It is a purely mutual association having no stock or bond holders.

Burial Plots are available in all parts of the cemetery and they are moderately priced. All lots are sold with permanent care.

Literature pertaining to the Springfield Cemetery, it's Chapel, Crematory and Columbarium, may be obtained on application at the cemetery office,

171 Maple Street Springfield, Mass.
